Checklist for HiSET Option Program Testing

A student in the HiSET Option Program has participated in preparation for this test and is, and will continue to be a full-time student. Taking the HiSET test is an alternative graduation path therefore there are specific requirements that must be met for this exception to test.

- The HiSET Option Program students must take the HiSET pretests before taking the actual test.
- The Permission to Test Waiver form must be signed by the student's parents, high school HiSET Option Program Coordinator and submitted to the state HiSET Option Program Specialist before testing. He/she will, in-turn, sign and send the form to the school so that the students can present proper documentation when they test.
- Electronic submissions are acceptable.
- The program coordinator must register the students online for the HiSET. Of special note is the inclusion of the state ID in the background section of the registration. The state ID is **Options** plus the Student ID number . Student IDs should be entered in the same area as the unique identifier.
- Students must report to the test center with the waiver form, proper identification and test center fee (if applicable).
