

## 21st CCLC Collaboration Signatures 2016-17 Grant Year All Cohorts

---

Collaborative partners and the local advisory committee of the 21 CCLC program are actively engaged in the support, development and implementation of the after-school program(s). Community collaboration can ensure that children attending a 21 CCLC program benefit from the collective resources and expertise throughout the community. Effective community partnerships allow for more efficient use of local resources and strengthen the variety of services offered to students. Collaborative partners also serve as “champions” for after-school programming in the school/community. Your signature on this page ensures that you have agreed to work with your 21st CCLC program as a collaborative partner.
